Experience

Total Wine & More   Feb 2021
Lead Mobile Engineer   - May 2023
Remote

- I led an agile team building mobile apps
- React Native, Go microservices, automated testing
- Spearheaded development of a business-critical product from early stages through launch
- Provided production support in a devops environment
- Mentored junior developers
- Served as technical POC for stakeholders and users

Mobile Development Consultant   Mar 2019
Remote   - Jan 2021

- I embedded with startups to rapidly build out products
- React, React Native, Vue, AWS services integration
- Interfaced with clients
- Collaborated remotely with dev teams

Lyra Development   Mar 2017
Software Developer   - Mar 2019
Albuquerque, NM

- I designed and built an enterprise support ticket and inventory management system
- Built and maintained Angular and React Native apps
- Developed REST APIs and Node/Express-based Firebase cloud services

Deep Dive Fullstack   Sep 2016
Technical Coach and Tutor   - Mar 2017
Albuquerque, NM

- I mentored students learning web languages and frameworks as well as testing and security practices
- Developed project management and leadership skills
- Technical focus: JavaScript, Angular, REST APIs
